Pastoral Address of the Auglican Bishops.

On Sunday, at the Cathedral, St John's and St Paul's, Esquimalt, and in other churches of the Diocese, the following address of the Bishops assembled in conference at Lambeth, was read :

To the faithful in Christ Jesus, the priests

To the faithful in Christ Jesus, the priess and deacons and lay members of the Church of Christ, in communion with the Anglican branch of the Church Catholic — We, the undersigned Bishops, gathered under the gond providence of God for prayer and conference at Lambeth, pray for you that ye may obtain grace, mercy and peace from God our Father and from the Lord Jesus Christ are Swint.

Christ our Savieur.

We give thanks to God, brethren beloved, for the faith in our Lord Jesus Christ, and the love towards the saints, which hatb bounded amongst you; and for the knowledge of Christ which through you bath been spread abroad amongst the most vigorous ledge of Christ which through you hath been spread abroad amongst the most vigorous races of the earth; and with one mouth we make supplication to God, even the Father, that by the power of the Holy Ghost He would strengthen us with His might, to amend amongst us the things which are amiss, to supply the things which are lacking, and to reach forth outo higher measures of love and zeal in worshipping Him, and in making known His name; and we pray that in His good time He would give back unto His whole Church the blessed gift of Unity in Tuth. in Truth.

in Tuth.

And now we exhort you in love that ye keep whole and undefiled the faith once delivered to the saints, as ye have received it of the Lord Jesus. We entreat you to watch and pray, and to strive heartily with us against the fr uls and sult the saith hath been aforetime and is now assembled.

we beseech you to hold fast as the sure word of God all the canonical Scriptures of the Old and New Testament; and that by diligent study of these oracles of God, praying in the Holy Ghost, ye seek to know more of the Lord Jesus Christ our Saviour, very God, and very Man, ever to be adored and

God and very Man, ever to be adored and worshipped, whom they reveal unto us, and of the will of God which they declare.

Furthermore we entreat you to guard yourselves and yours ogainst the growing superstitions and additions with which in these latter days the truth of God harh been everlaid, as otherwise so especially by the overlaid; as otherwise so especially by the overlaid; as otherwise so especially by the pretention to universal sovereignty over God's heritage asserted for the See of Rome, and by the practical exaltation or the Blessed Virgin Mary as mediator in the place of her Divine Son, and by the addressing of prayers to her as intercessor because God and man. Of such boware, we beseech you, knowing that the jealous God giveth not His honour to an-

Build yourselves up, therefore, beloved, in your most holy faith; grow in grace and in the knowledge and love of Jesus Christ our Lord. Show forth before all men by your faith, self-denial, purity, and godly conversa-tion, as well as by your labours for the tion, as well as by your labours for the people amongst whom God hath so widely spread you, and by the setting forth of His Gospel to the unbelievers and the heathen, that ye are indeed the servants of Him who died for us to reconcile His father to us, and to be a sacrifice for the sins of the whole world.

Brethren beloved, with one voice we warn Brethren beloved, with the voice we want you! the time is short; the Lord cometh; watch and be sober. Abide steadfast in the Communion of Saints, wherein God hath granted you a place. Seek in faith for oneness with Christ in the blessed sacrament of His body and blood. Hold fast the Creeds cf His body and blood. Hold last the Creeds and the pure worship and order, which of God's grace ye have inherited from the Primitive Church. Beware of causing divisions contrary to the doctrine ye have received. Pray and seek for unity amongst yourselves, and amongst all the faithful in Christ Jesus; and the gond Lord make you perfect, and keep your bodies, souls and apirits, until the coming of the Lord Jesus Christ.

The encyclical was signed by 29 English, Irish and Scotch Bishops, 28 Colonial and by 19 Prelates of the Anglical Church in the United States-in all 76-the whole number assembled at the Conference. It will be ment. The total relief dispensed in the same also largely signed by other Bishops of the time was \$690,675 97, of which \$625,820 25 Church of England who were unable to be

Installation-On Wednesday last the W. M. and Officers of Nanaimo Lodge No: Grand Encampment was \$64,855 12. 1090, E.R., F. and A. M. were duly installed by P. M. Bro. Robert Burnaby. The following are the names of the officers for the ensuing Masonic year: Bro. Clarke, W.M.; Bro. Phillips, S.W.; Bro. Brown, J.W.; Bro. Wilson, S.D; Bro. Alport, J.D.; Bro. Alexander, S.; Bro. Phillips, T.; Bro. Frew, I.G; Bro. Sabiston, Tyler. At the close of the ceremonies the brothren retired to the residence of Bro. Levi, where they were hospitably entertained by the Worshipful Master.

SINGULAR COINCIDENCES .- Vesuvius butst | forth with fearful grandeur on the 14th of November, as reported by telegreph. Seven streams of lava were in full flow at the latest dates, and the display is represented as most magnificent. On the same day the inhabitants of the City of Leon, in Nicaragua were startled by the sudden and almost sim ultaneous breaking out of a number of volcanic vents on the Pacific slope, and near the base of a long extinct twin volcano of Rota. On the morning of the 12th of Novembers the Island of Jamaica was severely shaken by two violent shocks of earthquake. On the evening previous the most remarkable electrical phenomena were witnessed off the southwest of the harbor of Kingston, during a terrific thunder storm. The account says: "The lightning looked as if it sprang upward from the sea, at one time it was forked lightning, at another it appeared like large balls of fire rising up from the water and bursting with great brilliancy in the clouds" On the 16th of November the Island of Porto Rico was visited by a severe earth, quake, and on the 19th it was repeated. The great earthquake of St. Thomas, St Johns, Tortola and other islands in the vicinity, of which accounts have been published, occurred on the 19th of November. And, finally, the grand meteoric shock took place on the 14th of the same month.

A NEW YORK SUPERINTENDENT OF POLICE ON THE MANCHESTER MURDERERS.—The New York Herald says :- " The following order was telegraped on Wednesday to the various captains of the Metropolitan Police and Brooklyn. It may be added that a committee of the Irish processionists, on the same day the order was issued, called on the Superintendent to obtain a police escort for the parade, but were ansuccessful in obtaining what they sought, Mr Kennedy contending that, as a policeman, he could not order policemen to escort a procession of sympathizers with the fate of men who had murdered a policeman: A large number of citizens also called at headquarters to urge upon the Police Commissioners the propriety of not granting an escort. There was no need of any urging: "A parade intended to do honor to the murderers of the Manchester nonn to the muderers of the Manchester policeman having been projected for tomorrow, you will on that day hold your whole command on duty, your oil platoon in reserve, subject to future orders.

JOHN A KENNEDY."

DRY GOODS WAR IN NEW YORK CITY .- A correspondent says :- "There has been a tremerdous fall in dry goods within the past two or three weeks, and the streets are placarded with announcements of the immense

sacrifices that are being made by the Cheap Johns of the trade. As a natural consequence, the women are all out in their gala dresses to take advantage of the situation. It is said that the fall was mainly caused by one man-A T Stewart-in order to break certain young and ambitious rivals who have been creeping up into the vicinity of his pa. One of these rivals has already gone down. It is the firm of Sherwin & Co., who recently bought the Maison Dorée on Union Square, and fitted it up at an expense of \$100,000. They had been open only three weeks, when one day they were forced to let a note go to protest, and the next the Sheriff stepped in and swept them

out clean. One is sorry to hear such a

charge laid at the door of the merchant

prince, and may be allowed to doubt its

truthfulness."

CALEDONIAN BENEVOLENT ASSCRIATION-The ceremony connected with the installation of officers for the ensuing year will take place on Friday, 24th just., to be followed by the fifth annual dinner of the Association. From what we can gather in relation to the preparations for the dinner, we have reason to believe it will be a very recherche affair. being taken to national as possible in character. THEATRE ROYAL .- Mr Marsh's benefit takes place this evening, and we hope to see a crowded house. For our amusement Marsh has been an active caterer, and has brought his family here and settled down among us. This evening he produces the comedy of "Still Waters Run Deep," one of Tom Taylor's happiest efforts, and the standard farce of "State Secrets," never played here before. Great trouble has been taken to warm the house. The good programme offered, and the fact of two new faces appearing on the stage, should, independent of other considerations, fill the hous for Marsh. Martin, the Wizard, will introduce his capital ventriloquism scene between the pieces. The bex-office will be open for securing seats to-day.

"OH, FOR A LODGE IN SOME VAST WILDER-NESS !"-A young blade belonging to H. M S. Sparrowhawk, having become smitten with the charms of a youthful maid of the forest, deserted his vessel about a month ago and took up his abode at the Indian village, where he basked in the smiles of his red inamorata until Sunday, when a cruelhearted, practical policeman, having neither poetry in his soul nor the milk of human kindness in his heart, broke in upon the blissful scene and escorted the amorous young sailor to the Barracks. Yesterday Mr Pemberton ordered him back to his ship.

COUNTER CHARGES - A citizen appeared yesterday to answer a charge of having assaulted a squaw. It appeared in evidence that the woman had rented a house from the citizen; that on the same evening she got drunk and when remonstrated with by her landlord se'zed a stick and broke two of the windows of his private house, and that then she was turned out. A counter charge of assault was preferred against the woman by the man, and the Magistrate fined both

SKATING .- The cold weather of the past few days has put the ice in several districts in good order. Last Sunday and yesterday saw Swan Lake well patronized. On the former day over 150 were skating. Numerous falls took place and good humor pre vailed everywhere. Vehicles of all sorts, from the four-horse coach to the smallest buggy, were called into requisition. The snow which fell last evening will doubtless spoil the ice for skating.

BARTHOLOMEW'S RIDING SCHOOL. - We see, by advertisement in another column, that this establishment will be opened for the organization of classes on Saturday next. We have seen the schedule of fees, and think they cannot fail to be acceptable to the public. A circular containing full particulars will be published to-morrow.

WE would call the attention of the trade to the sale of American clothing, furnishing goods, boots and shoes, &c., to take place this day, at the salesroom of J. P. Davies & Co., Wharf street, at 11 o'clock a.m; also family carriage, horse and harness, billiard table, &c.

MR HARNETT'S LECTURE,-This entertainment was well attended last evening, and the lecturer acquitted himself in a manner highly satisfactory to the audience, as was evinced by their frequent and hearty are plause. Our report will appear to-morrow.

J. P. DAVIES & Co. will sell, at the farm of Mr R. C. Portman, North Saanich, tomorrow, at 12 o'clock, noon, stock, mules pigs, farming implements, &c. Stages will leave Williams' for Saanich at 7 o'clock on the morning of sale.

Cabins have been constructed on H. M. S. Scarrowhawk for the accommodation of Admiral Hastings. We hope that the appearance of the symmetrical little vessel will not be detracted from by the addition.

An Assistant Surgeon has been apprinted to the gunboat Forward; and Dr Carmichael, Assistant Surgeon of H M.S. Scout, has teen promoted to the position of Surgeon, made vacant by the death of Dr Sproule.

At a meeting of the Board of Marine Underwriters of San Francisco, on the 2d of September last, the following resolutions were adopted :

Resolved,-That a committee of two be appointed by the chair to act, together with the Surveyor of the Board, for the purpose of investigation and report on the following

1. Whether it be practical to inaugurate a large shipbuilding business at Puget Sound and other ports to the northward of San Francisco, with a view to the construction of vessels of size and strength sufficient ulti-

mately to control the loreign as well as the consting trade of San Francisco?

2. Whether any safe method can be devised where by the Insurance Companies can advance a portion of the capital, on mort-gage or otherwise, necessary to facilitate the inauguration of shipbuilding, and to what extent it may be advisable to make such

The committee (consisting of C. T. Hopkins, C. L. Taylor and Joseph Ringot) immediately placed themselves in communication with the lumbermen of Puget Sound and shipbuilders in the East: and after a patient and impartial examination have submitted their report. This report is issued in pamphlet form, and a copy lies before us. The committee commence by denouncing the " small, old and worthcoasting voyages, and contend that "San Francisco pays annually \$6,000,000 in freight to sailing vessels owned elsewhere." Of this sam \$1,500,-000 is set down as the average annual profits, exclusive of steamer freights, which, it will be seen, would be 40 per cent. on \$3,750,000, which would build from Pacific Coast timber not less than 40,000 tons of shipping, provided the expense did not exceed \$90 per ton. The committee frankly acknowledge that the scant oak timber on the coast is generally of poor quality; but British Columbia and Puget Sound are the hackmatac of the Eust-some "large sizes" to give it the strength sources of this Northern coast. of oak. It is estimated that a vessel built of this material will last from 15 to 16 years; it has been used in the construction of many coasting vessels, and a list of several first-class Sacramento river steamers and two ocean steamships-all still running-is furnished as an evidence of its durability. To this list may be added the Colonial steamers Isabel and Enterprise (the latter built at San Francisco), the Fraser River steamboats; the new American schooner Alaska, which has just left this port for San Francisco, and many schooners built on this side of the line. It is only a few weeks ago that we published an article commonding the superior character of the Water prepared by Lanman & Kemp, New York. timber used in the construction of another Colonial vessel-the brig Island fir and spruce; and most old readers will remember the Island-built schooner Alberni, which was afterwards sold at the Sandwich Islands, whither several other Colonial schooners have lately sailed and found ready sale because of the excellence of their timber. The Island spruce,

yellow and white cedar, oak, laurel

and locust are favorably mentioned as

being equal and in some respects

superior to Eastern lumber of similar

grades. Over British Columbia and

grow eloquent, pronouncing them

"the finest spars in the world," and

adding: "In nearly all the pro-

minent ship-yards of the old world a

heavy freight has to be paid on spars,

because they require vessels of large

size to be injured for other purposes

by the cutting of bow ports; while

the bulky nature of the cargo requires

a long time for loading and discharg-

ing. All this is wholly saved at Puget

Sound and at all other of our lumber

ports, where the finest of spars can be

procured in immense quantities, for

the mere cost of cutting and towing them to the yards." Oakum and

cordage can be supplied in any quan-

tity from local manufactures already

in existence. Iron and copper ord

are abundant on this island and in

Oregon, while we have the coal for

smelting them all around us. Pitch,

tar and turpentine may be had anywhere in inexhaustible quantities. In fact, in no section of the universe are there so many of the natural resources at hand for the successful employment of labor and capital as on Puget Sound and in British Columbia. The country teems with natural wealth and advantages, such as no other quarter of the globe can offer. Appended to the report is a letter from Henry Steers, the eminent New York shipbuilder. Mr Steers thinks the rate of wages is about the same there as on this coast. Upon the cost of material he says:

"You say that you can purchase fir (which I faucy is similar to our hackmatack) for \$12 I fancy is similar to our nackmatack, for the per M, gold. The labor of building a vessel is generally computed at one-third the cost, and as you can procure your building material so very much less than we can, I see no good reason why you should not build your own vessels instead of buying old ones of Eastern build. You will certainly have much better vessels, and, as you say, such as will last very much longer. Your fastening material, such as copper and iron, I shruld think you would be able to procure almost as reasonable as we can here, and soon after starting the building of vessels you would be able to make all the different kinda of articles connected with shipbuilding almost as fast as you required them." mest as fast as you required them."

In drawing their report to a con clusion, the Committee recommend that a Corporation be formed with a capital subscribed of \$1,000,000, and power to increase it to \$5,000,000 that at least \$500,000 of this amount should be paid in within 12 months. The company should then make a selection of suitable location for yards at two or three points on Puget Sound, or at Coos Bay. They should import, by the cargo, to their yards direct from the cheapest supply ports in the world, all such articles of naval steres as cannot be more cheaply supplied from our own industry. They should erect permanent buildings at their yards for the storage of supplies, for sail-lofts, and boarding houses for their men. They should contract abroad for hundreds of mechanics, axmen and other laborers, if they found less fleet of domestic vessels" which themselves unable to command a suffi-San Francisco sends to sea on long ciency of labor at home. All their operations should be conducted on the wholesale principle. The vessels should be constructed on the best models, thoroughly fastened, heavily timbered and supplied with all modern improvements, so as to give them a good character from the start. The company, having a large capital, would be able to keep several vessels constantly on the stocks, and if not saleable here on completion at a fair price, they would be able to freight them from port to port until a market were found. We have not room to-day for they speak admiringly of the red and the production of any further extracts yellow fir with which the coasts of from this admirable report; but carefully commend it to the attention and densely clothed, and which are equal to perusal of every man who has an interest in the advancement and the builders asserting that it only needs development of the illimitable re-

It is said that the Prussians, during their fifty years' occupation of the fortress of the Luxembu g, have executed extensive works of sap and mine. They have constructed upon the citadel a crypt—in fact, a subterranean citadel—a complete labyrioth composed of an infinite number of galleries and chambers with posterns and false doors. On giving up the fortress they now assert that they have no plan of these works, and have contented themselves by handing over to the garriance of the new parrian of Luxemburg. governor of the new garrison of Luxemburg a bundle of keys of all these doors and gal-laries, without any further information. The bundle consists of 535 keys, and the confusion of the poor governor may be im-

SERIOUS LOSS OF BILLS OF EXCHANGE.— The Glasgow Evening Citizen stated that 23 hills of exchange, amounting in value to upwards of £49,000, had been lost in their transmission by post from London to Glas gow. A good deal of excitement was occa-sioned by the announcement, but all anxiety as to the late of the bills was removed by their discovery in the post office, London, where they were lying. It appears that they had been directed to Calcutta instead of Glasgow.

The Wilmington (Del.) Daily Council of the 23d says: 'This afternoon, 10 men. 6 The Wilmington (Del.) Dany Council of the 23d says: "This alternoon, 10 men. 6 colored and 4 whites, were lashed at Newcastle to-day. The exhibition was witnessed by a large crowd of men, boys, and girls. The whipping commenced at 1 o'clock. The scene was enlivened by a drunken man singing bymns, and the shouting of children. This morning 5 men were pilloried."

A private letter from Glasgow says that, although the price of cotton is nearly as low as it was before the war, there is no demand for goods, and the manufacturers are as badly off for the orders and the operatives for work, as they were in 1857. He adds; "There is more starvation in Glasgow and its neighborhood just now than at any time for ten years

ABSCONDING OF A LIVERPOOL SOLICITOR. Mr William Stockley, the senior member of the firm of Stockley, Wrigley, and Stockley, solicitors, of Liverpool, was yesterday adjudis cated a bankrupt in the Court of Bankruptcy The act of bankruptcy was the alleged absconding of the debtor. The petitioning creditor is a lady, who is stated to have deposited a considerable amount in trust moneys with the bankrupt's firm, which the bankrupt, without the knowledge of his partners, contrived to appropriate, together with other sums, amounting, it is said, in all to about £40,000 .- London Times.
